## TATTOO

Thank you for choosing to make your tattoo with us :) Here is all the information you might need.

At the end of your consultation, we take a deposit to secure your appointment and to start working on your project. The deposit is usually between 1000czk and 2000czk, depending on the complexity of your drawing and at your artist's discretion. All tattoo deposits are non-refundable and non-transferable. For multiple-session tattoos, the deposit will be held until the last session of the tattoo. In the event that you need to reschedule, we require an email, phone call or message at least 72 hours prior. We will move your deposit with your appointment up to two times before it is forfeited. You are allowed to change your design one time, at least 7 days before your appointment, as this is usually when we start sketching our projects. Your deposit will also be forfeited if you arrive more than 30 minutes late.

For your safety please answer all the following questions. Your information will always be kept private.

I hereby declare that I am not under the influence of alcohol, medication or drugs and that have not used any type of cream, gel, anaesthetic or any other product in the area about to be tattooed.

I hereby declare that I have been informed on how to care for my tattoo during it's healing process.

I hereby declare that all information above is true and that I have total responsibility if I made any errors or omissions while filling this form.
